### Slate stone for sale

Hi Jim, I just talked to the owner of the slate and he says he wants to sell it. If you or anyone in the society is interested his name is Joel Lieb and phone number is [1 814 796 2789](tel:18147962789).

Miller & son made a presentation

### AL ARABIYA

An Egyptian jihad leader, with self-professed links to the Taliban, called for the “destruction of the Sphinx and the Giza Pyramids in Egypt,” drawing ties between the Egyptian relics and Buddha statues, local media reported this week. Murgan Salem al-Gohary, an Islamist leader twice-sentenced under former President Hosni Mubarak for advocating violence, called on Muslims to remove such “idols.” “All Muslims are charged with applying the teachings of Islam to remove such idols, as we did in Afghanistan when we destroyed the Buddha statues,” he said on Saturday during a television interview on an Egyptian private channel, widely watched by Egyptian and Arab audiences.

I do not know if the Ancient Aliens TV series on the History Channel has gone international yet, the CD discs are certainly available from History Channel. Once you get past the unfortunate absence of the work of Davidovits (reconstituted stone) and Chris Dunn (ancient tools) in the Puma Punku and pyramid discussions, this becomes excellent. The Egyptian Light Bulbs are shown to be illustrating the Birth of the World, the crystal skulls are all fake, Ezekiel's Wheels are shown to be the Throne of God on the Chariot of Heaven, UFO's in Art are shown to be the Sun and Moon, ancient nukes

evidence is shown to be wrong, "Vimanas" are shown to be from a "channeled" book of 1908, Sitchin's "Annunaki" are shown to be fiction (the winged spaceships are Sungod images), the "Nephilim" evidence is from bad text info, the ceramic spaceship is claimed to be 25 years old. This is a good effort toward settling the truth on these issues, I hope we can contribute to this effort, and make it even better. I will look for some way to send in email.

Regards,  
Jay S Wakefield

From Tom Anderton,

I am trying to get someone to go to the Rainbow Rocks petroglyph site here and get some good photo's of the Elephant glyph that the archeologists say is a fake. I have found some more petroglyphs by my camp also. One may be aligned with the winter solstice or equinox. Hope to test it if the sun shines that day. John Ruskamp was here this summer and plans to be back. I like him. He has a new book on Chinese glyphs in the West.

Ice-Free Corridor pdf thesis (file attached)

Its long, 200+ pages but the crux of it is in the first few pages and his conclusions starting on thumbnail page 210 or thesis document page 199 (chapt. 7). The writer is establishment (but open-minded) and concludes this corridor did not exist as used by the establishment.

He does allow people arriving by boat along the coastline, etc., or migrating slowing downward as the ice advance.

From John White and Jay Wakefield

Now here is a great story. I am not aware of the physics discoveries that all this UFO discussion demands!

Nazis, UFOs, and Antarctica...

Can't find video. Need to look through other sources.
